

PRODUCT

WhatsApp-first fleet inspections.

FleetPing helps small fleet operators collect driver inspections through WhatsApp, screen reports with AI and ML, and alert managers when a critical vehicle issue needs action.

Admin dashboard

The pain

Urgent driver reports get buried inside busy WhatsApp groups and spreadsheets.

The workflow

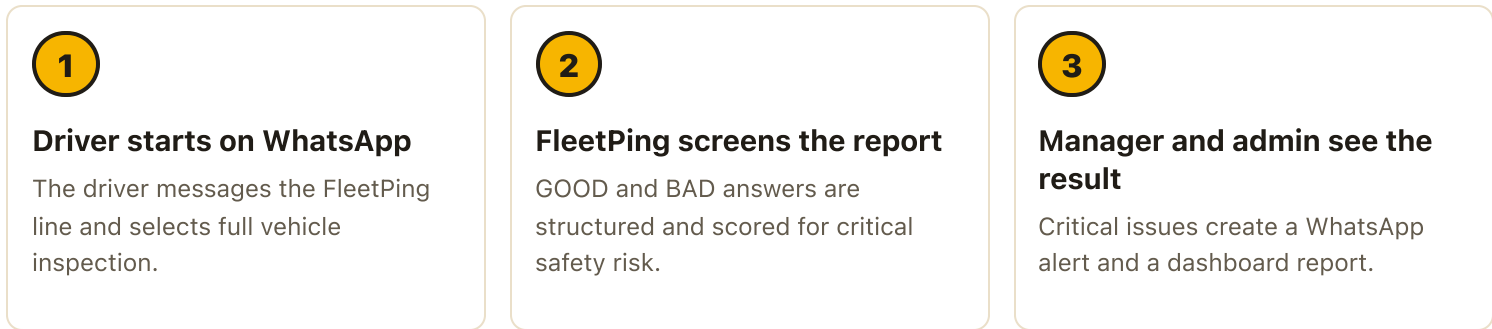

Drivers answer inspection questions with GOOD or BAD in WhatsApp.

The result

Managers get instant alerts and admins get structured PASS/FAIL reports.

HOW IT WORKS

From driver inspection to admin result.

Report detail with failed item count, urgent status, driver identity, category, and timestamp.

Full inspection results with PASS and FAIL outcomes for every checklist item.

Drivers use WhatsApp. Managers see what needs action.

USE CASES

Daily safety inspections

Collect brake, tyre, steering, lighting, horn, wiper, and emergency equipment checks.

Breakdown and incident reports

Drivers can report incidents or breakdowns from the same WhatsApp line.

Critical safety escalation

BAD answers on safety-critical items can alert managers before dispatch.

PRICING
